

Technol
450 Diesel
Conditioner

Cold-Climate
Diesel Fuel
Conditioner

- ◆ Lowers Pour Point 45°F and the Cold Filter Plug Point 22°F
- ◆ Combustion improvers increase fuel performance providing for a more complete fuel burn
- ◆ Increases lubricity in low and ultra low sulfur fuel
- ◆ Increases available horsepower and torque
- ◆ Cleans the entire fuel system from fuel tank to exhaust valves
- ◆ Stabilizes the fuel preventing sludge
- ◆ Emulsifies water controlling bacteria and algae
- ◆ Inhibits tank and fuel system corrosion
- ◆ Increases fuel economy
- ◆ Lowers exhaust emissions and soot output
- ◆ Reduces fuel-related equipment downtime, maintenance costs, and service calls

This diesel fuel conditioner complies with the federal low sulfur content requirements for use in diesel motor vehicles and non-road engines.

Available in	Usage Directions
Gallons, packed 4 per case, 5-gallon pails, 55-gallon drums, and bulk totes.	Apply 1-8 oz bottle to 60 gallons of fuel. Apply 1 gallon to 1,000 gallons of fuel. Apply Technol 450 before refueling and the onset of the fuels cloud point temperature to provide proper mixing, distribution and cold flow protection.
