

**Technol®
B100 Biodiesel
Cold Flow
Improver**

Anti-gel Pour Point Depressant

- ◆ Application Ratio 1:750
- ◆ Specifically formulated to improve the pour point cold flow capabilities of Soy B100 by 30°F
- ◆ Permits the smooth-flowing of B100 during cold climate conditions
- ◆ Reduces fuel pick-up and line clogging
- ◆ Large, cohesive, fatty, solids that bind together forming a gelled mass are not allowed to form, effectively lowering the pour point
- ◆ Recommended for vehicle and home heating B100 Pour Point conditioning
- ◆ Registered with the EPA for on-road vehicle use
